

Essential Oils for Haircare

Using
dōTERRA Essential Oils

AROMATHERAPY IN HAIR SALONS

USING ESSENTIAL OILS

As hair stylists diversify and increase their income they are turning to value-added methods: incorporating aromatherapy and essential oils is one way to do both.

For those who enjoy styling hair, have a flair for fashion and have great people skills, hairdressing can be an excellent way to earn a living. It is a career that fits with many lifestyles – from a stay at home mom with little spare time, to the entrepreneur who has dreams of owning a chain of salons. The hours can be flexible and the working conditions can be pleasant.

DIVERSITY IN HAIR CARE

It used to be that a hair stylist cut, colored and permed hair, and that was pretty much all. Today, with increasing competition and customer demand, hair salon owners are diversifying their product and service offerings. The salon that becomes a one-stop-shop for hair treatments, facial and beauty treatments as well as aromatherapy treatments and other body care services will maintain a strong customer base and generate more revenue in the long term.

WAYS TO INCORPORATE ESSENTIAL OILS IN THE HAIR SALON

Beauty salon owners have found several unique and timely ways to introduce aromatherapy essential oils to their clients – ways that increase their sales and generate customer loyalty.

One of the ways to do this is by offering a line of natural skin care and hair care products with added pure essential oils and no chemicals. A salon might offer pre-scented products or unscented products that can be customized with pure essential oils for each client based on his or her conditions and mood. Another way to introduce essential oils to the salon environment is to have a custom

scent developed – a blend of pure essential oils created specifically for the salon. The scent can then be added to natural hair care products, sold as a perfume and diffused in the salon. Like brand recognition, customers will associate the scent with that particular salon, garnering further loyalty.

Diffusing anti-viral and anti-bacterial essential oils, such as eucalyptus essential oil and tea tree essential oil, throughout the salon gives the added bonus of creating a germ-free zone.

Finally, essential oils can be sold on their own to customers looking for the healing qualities of the oils. Carrying a small line of the most popular essential oils, nicely displayed at the counter, diversifies the products available to customers who are looking for a small gift or impulse purchase.

AROMATHERAPY RECIPES FOR THE HAIR SALON

There are many essential oils and hydrosols that relate to hair and skin conditions. To create effective products, ensure good quality natural bases are used.

AROMATHERAPY RECIPE FOR DRY, FINE HAIR

This recipe makes a stimulating blend of essential oils for dry fine hair, To 100mls of a natural shampoo base add: ·

- 7 drops · Eucalyptus essential oil·
- 3 drops · Lemon essential oil ·
- 3 drops · Rosemary essential oil

Aromatherapy Recipe for Greasy Hair

Greasy hair is caused by the over-activity of the sebaceous glands. Too frequent shampooing with harsh shampoos can aggravate the condition. To 100mls of a natural shampoo base add:

- 6 drops Lavender essential oil
- 4 drops Birch essential oil
- 4 drops Basil essential oil

Lemon Vinegar Rinse

This rinse works well on greasy hair. It helps to keep the grease at bay and make hair smell wonderful.

- 3 drops Lemon essential oil
- 2 teaspoons Cider Vinegar
- 25 mls Water

Mix lemon and vinegar, then add water and shake. Use as a final rinse, then rinse with clear water.

Skin Protector

A Hack

When having your hair coloured at the hairdressers rub on some dōTERRA lip balm OR correct-x around your hairline and ears to protect your skin against hair colour

dōTERRA's Best Hair DIYs

For many years, people have used essential oils for hair care, due to their moisturizing, soothing, and enriching properties. If you are looking for the best oils for hair, check out some of our favorite DIYs that will keep your luscious locks in good condition all year long.

Did you know that you can use essential oils for hair that feels tangled, course, or just plain stubborn?

Natural Hair Detangler DIY

This easy DIY allows you to use soft, moisturizing essential oils to detangle your snarly, troublesome hair.

There are few things more annoying than tangled hair—it can often lead to a tender scalp and lots of unnecessary hair stuck in your brush. Using a detangling spray is a great way to make your hair tangle-free before running a brush through it. In this DIY Hair Detangler with essential oils, marshmallow root and apple cider vinegar act as natural detanglers, and essential oils add additional benefits to help keep your hair healthy and beautiful.

Ingredients

- 350 ml (or larger) spray bottle
- 1 ½ cups distilled water
- 3 tablespoons marshmallow root
- ½ cup apple cider vinegar
- 5 drops Rosemary oil
- 5 drops Patchouli oil
- 5 drops Geranium oil
- 5 drops Melaleuca oil
- 2 tablespoons dōTERRA Essentials[®] Smoothing Conditioner
- 2 tablespoons dōTERRA Essentials[®] Smoothing Conditioner

Instructions

1. Boil water and marshmallow root in small pan.
2. Reduce heat and let simmer 20–30 minutes.
3. Let cool slightly and strain through cheesecloth or wire strainer.
4. While warm, pour into bottle and add conditioner, apple cider vinegar, and essential oils.
5. Shake until combined.

To use, spray generous amount on wet hair and comb through.

Hair Perfume DIY.

Keep your hair smelling fresh and sweet all day long with this simple essential oil Hair Perfume DIY.

This sweet smelling concoction is full of some of the best essential oils for hair—Ylang Ylang, Rosemary, Sandalwood, Grapefruit, and Lavender oil.

Hair perfume is a great way to leave those you pass by with the sweet and enticing aroma of essential oils. Lightly spray it on your hair to keep it smelling sweet and fresh. Feel free to switch up the essential oils used in this recipe to create your perfect aroma.

Ingredients

- 1/3 cup rose water
- 1 teaspoon pure vanilla extract
- 5 drops Ylang Ylang oil
- 4 drops Rosemary oil
- 5 drops Sandalwood oil
- 3 drops Lavender oil
- 4 drops Grapefruit oil*

Note: *You can purchase rose water at most health food stores in the soap and hygiene aisle.*

Instructions

1. In fine-mist glass spray bottle, add rose water, vanilla extract, and essential oils. Add more or less essential oils depending on your preference.
2. Shake and spray on hair as desired.

**Please note that citrus essential oils are photosensitive and can lighten your hair if exposed to UV rays.*

Herbal Hairspray DIY

This Herbal Hairspray DIY will bring your favorite essential oils together to create a spray that will give you the hold you need to keep your hair in line—no matter how crazy the day gets. Aerosol hairsprays can often contain harsh chemicals and toxins, but when you use essential oils for hair care, you'll experience the benefits of safe, natural ingredients.

Making your own hairspray is easy with essential oils, and it only requires a few simple ingredients that you probably already have at home. This herbal hairspray can easily be customized to your preferences by using your favorite essential oils and adjusting the recipe to create your preferred hold.

Ingredients

- 1 cup water
- 4 teaspoons sugar
- 2 drops Geranium oil
- 2 drops Lavender oil
- 2 drops Peppermint oil
- 2 drops Rosemary oil
- 2 drops Clary Sage oil

Tip: Use more or less sugar depending on how strong you want the hold to be.

Instructions

1. In saucepan, combine sugar and water. Bring heat to boil and stir until sugar dissolves. Remove from heat and cool.
2. Pour essential oil into eight ounce glass fine mist spray bottle and add cooled sugar water.
3. Use as you would any other hairspray.

Note: *Feel free to customize the essential oils to your preference. You can use one or all of the essential oils listed above. However, be careful using citrus oils as they can lighten your hair if exposed to UV light.*

Hair Wax.

With this Rosemary and Peppermint oil wax for hair styling, you'll be combining some of the best oils for hair with the smooth texture of Fractionated Coconut Oil, shea butter, and beeswax. If you need to tame your wild hair with some natural hair sculpting wax, check out this tutorial for essential oil Hair Wax.

Hair wax helps add texture and style to men and women's hair. This easy DIY hair wax, made with essential oils, is healthy for the hair and can be enjoyed by those of all hair types. Check out what this doTERRA Employee had to say about this hair wax DIY:

"This hair wax is fantastic. I love that I can use whatever essential oils I would like and that it works great on my 'style-resistant hair'. The simplicity of the ingredient list also amazes me. I have been paying a lot of money for high-end products that contain some questionable ingredients because it has been the only thing that works for my hair. Those days are over. Now, I can make my own!"—Rachelle

Ingredients

- 4 ½ teaspoons beeswax
- 1 tablespoon shea butter
- 4 ½ teaspoons Fractionated Coconut Oil
- 10 drops Peppermint essential oil
- 10 drops Rosemary essential oil

Tip: For harder hair wax, use two tablespoons of beeswax and one tablespoon of Fractionated Coconut Oil. For softer hair wax, use four and a half teaspoons of shea butter and two tablespoons of Fractionated Coconut Oil.

Instructions

1. Combine all ingredients, except for essential oils, in glass container.
2. Place jar in saucepan with one to one and a half inches of boiling water.
3. Stir ingredients until melted and thoroughly combined.
4. Remove from heat and let rest for three minutes.
5. Add essential oils and stir.
6. Pour mixture in empty tin or glass jar with lid.
7. Let hair wax rest one to two hours.

To use, apply a small amount to fingers and style as desired. A little wax goes a long way

Natural Deep Conditioner

Instead of shelling out big bucks for fancy deep conditioners, try using essential oils for hair repair with this easy Natural Deep Conditioner DIY. When dealing with damaged, dry hair, get a little extra help with some of the best hair oils like Lavender, Peppermint, Rosemary, Clary Sage, and Geranium oil to rejuvenate and repair your lackluster locks. Check out this simple tutorial, and rejuvenate your hair today.

Dry, damaged hair? Millions of people can relate. Buying deep hair conditioning products or getting a conditioning treatment at a spa can be expensive, and most treatments contain unnatural ingredi-

ents. This homemade deep hair conditioner is easy to make and will leave your hair soft and smooth.

Ingredients

- 3 tablespoons coconut oil
- 1 tablespoon olive oil
- 8 drops doTERRA essential oils

A few great essential oils for your hair include: Lavender, Peppermint, Rosemary, Geranium, and Clary Sage.

You can use one or all five of the essential oils in your deep conditioner.

Instructions

1. Put coconut oil, olive oil, and essential oils in mixing bowl.
2. Mix on medium/high speed for five minutes or until ingredients are whipped to a thick and creamy consistency.
3. Once whipped, apply to clean, dry hair.
4. Comb through with wide tooth comb to evenly distribute.
5. Let sit 15–20 minutes. Rinse, shampoo and style as desired.
6. Repeat once a week or as often as desired.

Wave Spray

If you want to maintain beautiful beach waves but don't live near the ocean, you can use this simple Wave Spray DIY to create your own beachy waves any day of the week. Using Rosemary and Lemon essential oil, this creation will give you the perfect carefree waves—without the sand or sunburn.

Although you may not live near the beach, your hair can easily look like you've been playing in the waves with this homemade salt spray. This easy spray will help give you

those perfect beach waves—without all the sand and greasy sunscreen—to help recreate your best hair days at the beach with loose, carefree curls.

Ingredients

- 250 ml spray bottle
- 1 cup hot water
- 2 tablespoons Epsom salt
- ½ teaspoon sea salt
- 1 teaspoon doTERRA Salon Essentials® Healthy Hold Glaze
- ½ teaspoon Fractionated Coconut Oil
- 5 drops Rosemary oil
- 5 drops Lemon oil

Note: *Lemon oil is photosensitive and may lighten your hair if exposed to sun. Feel free to omit if desired.*

Instructions

1. In a spray bottle, add Healthy Hold Glaze and salts.
2. Add Fractionated Coconut Oil and essential oils.
3. Top with water and shake.
4. To use, spray generously on hair while scrunching with hands. Let dry.

Dry Shampoo

Are you a fan of dry shampoo? If you love not having to wash your hair every day, you can try this tutorial using essential oils that will make your hair look, smell, and feel great until your next wash. With the softening and moisturizing properties of Lavender, Rosemary, and Peppermint, this essential oil Dry

Shampoo will keep your hair looking and smelling clean—no one will ever know the difference!

It's okay to give your hair a break from the shampoo every once in a while. This dry shampoo made with essential oils is a great way to keep your hair looking, smelling, and feeling great for those days between washes.

Ingredients

For light hair:

- ¼ cup arrowroot powder
- 2 drops Lavender oil
- 2 drops Rosemary oil
- 2 drops Peppermint oil

For dark hair:

- 2 tablespoons arrowroot powder
- 2 tablespoons cocoa powder
- 2 drops Lavender oil
- 2 drops Rosemary oil
- 2 drops Peppermint oil

Instructions

1. Put arrowroot powder, cocoa powder (if using), and essential oils into food processor.
2. Pulse until well combined.
3. Store in glass jar.

To use, apply powder to roots and oily parts of hair using an old (washed) makeup brush.

Essential Oil Heat Protectant Spray

Whether you like to curl, straighten, blow dry, or style your hair, heat can take a serious toll on your strands. If you use these hot styling tools during your daily hairstyling routine, it is a good idea to use some sort of protecting product to shield your lovely locks from heat damage. Instead of buying a pricey protectant spray, consider making your own with this Essential Oil Heat Protectant Spray that

uses essential oils like Clary Sage and Geranium to protect your hair. Not only will this DIY spray keep your hair safe from the heat, but it will leave your strands with a wonderful smell all day long.

Shield your strands with this heat protectant spray, made with Clary Sage and Geranium essential oils. Easy to make, this DIY spray will have your hair feeling full and healthy.

Ingredients

- 1 teaspoon Fractionated Coconut Oil
- 1 tablespoon sweet almond oil
- 2 teaspoons doTERRA Essentials® Smoothing Conditioner
- 1 cup water
- 5 drops Clary Sage oil
- 5 drops Geranium oil

Instructions

1. Pour half of water into spray bottle.
2. Add Fractionated Coconut Oil, sweet almond oil, conditioner, and essential oils into bottle.
3. Add remaining water and shake well.

To use, apply one spritz to hair and work it through until hair is lightly coated. Style as normal.

Guys Guide to Facial Pride

Live the Rugged Life

Pre-beard

A healthy diet is the key to healthy hair. By maintaining a good balance of vitamins like A, B, and E, you are actually creating a great environment that promotes hair growth.

Beard Growth

Facial hair doesn't always grow out evenly, so trim it every now and then. Lots of guys stop growing out facial hair and start shaving because it gets itchy. If a beard is what you want, fight through the itch with the help of soothing doTERRA essential oils.

Beard Care

To keep your beard soft and shiny, it is important you use essential oils to condition the beard and keep up its shine. Follow these steps to a soft and shiny beard:

1. Pour a few drops of essential oils into your hands.
2. Work the oils through your beard until you've reached the hair tips, making sure that you evenly spread the oil over your beard and the underlying skin.
3. Apply the beard balm or beard oil recipes in this article once a day. For extra shine, first use the beard oil recipe and then the beard balm.

Beard Maintenance

Make sure and wash your beard a few times a week. Always use shampoo—don't even think of using bar soap. You'll dry out your beard and the skin underneath. Make sure to follow up with some essential oils after your beard is completely dry. Trimming your beard every two months is recommended to maintain a healthy beard. Shaving your neck and the areas around your beard will also keep you looking fresh.

Beard Oil

This beard oil recipe will work well for all beards, but especially the early or shorter stages of a beard. It will absorb quickly and is perfect for moisturizing the skin.

Ingredients

- 30 ml Fractionated Coconut oil
- 4–5 drops Rosemary oil
- 3–4 drops Frankincense oil
- 3–4 drops Siberian Fir oil
- 3–4 drops Cedarwood oil

Directions

1. In a small bottle with an eyedropper cap, add Fractionated Coconut oil.
2. Add Rosemary, Frankincense, Siberian Fir, and Cedarwood essential oils.
3. Place the cap on tightly and shake well.
4. Using your hands or the eyedropper, apply a few drops and massage into the beard.
5. Brush your beard for a finishing touch.

Beard Balm

For those beards that are medium to long, or if your skin tends to be dry. A balm does not absorb as fast as the beard oil; it will sit longer on your beard and skin for longer-lasting moisture and extra shine. The thickness of the balm also works as a styling agent to help you shape and tame your beard.

Ingredients

- 2 teaspoons Beeswax
- 1 teaspoon Shea Butter
- 3 teaspoons Fractionated Coconut Oil
- ½ teaspoon Vitamin E oil
- 2 drops Cedarwood oil
- 2 drops Melaleuca oil
- 2 drops Rosemary oil

Live the Smooth Life

Wet Your Beard Thoroughly

Hair absorbs water well, especially warm water. After several minutes your hair becomes weaker, which is better for shaving. Showering before shaving is the best way to ensure your beard is properly moistened. This will also help your razor blade last longer. If a shower is not possible, rinse your face, then apply a warm moistened towel for a couple of minutes.

Use Shaving Cream

The main purpose of shaving cream is to lubricate your face so that the razor will glide easily and smoothly across your skin. Leave the shaving cream on your face for at least a minute before you begin shaving so that your beard has a chance to get as soft as possible. We recommend using a shaving brush, because it helps create a rich, creamy lather with the shaving cream that stays close to the skin. It also exfoliates, which reduces the chance of blemishes and potential razor bumps. Apply the shaving cream in a circular motion ending in an upward stroke to help lift the hair up and away from the face.

Use High-Quality Razors

Always use a good quality, sharp razor blade. A dull blade is harmful to the skin and is an underlying factor to razor burn and any resulting shaving rash. Make sure your razor is up-to-date. When shaving, always make sure to shave with the grain. Start with the sides, then the mustache area, and last the chin. The chin hairs are the toughest, so this allows them the most time to soften under

the shaving cream. Rinse your blade under hot water before you begin to shave and after every few passes.

Dry and Soothe After Shaving

When you just finish shaving your skin is at its most vulnerable. Rinse your face with warm water and apply HD Clear[®] to cleanse the pores. Afterward, pat dry (never rub dry) with a clean towel.

Finish Off with Aftershave Lotion

Due to the irritating nature of shaving, it is important to always follow up with an aftershave lotion. The ingredients in the below Razor Relief Serum are great for most skin types. It is important to find an aftershave that works with you. You can experiment with different essential oils to find your own serum.

Shaving Cream

Ingredients

- 1/3 cup shea butter
- 1/3 cup raw coconut oil
- 1/4 cup Fractionated Coconut oil
- 5 drops Sandalwood oil
- 5 drops Peppermint oil
- 5 drops Melaleuca oil

Directions:

1. Place all ingredients except for essential oils in double boiler.
2. Once melted, remove from heat and let sit 3 minutes.
3. Add essential oils and stir until combined.
4. Let shaving cream rest until hard. Tip: Put it in the refrigerator to speed up the cooling process.
5. Using mixer, whip shaving cream until light and fluffy.
6. Place in container of choice.

Razor Relief Serum

Ingredients:

- ½ cup Fractionated Coconut oil
- ¼ cup rosewater (can be purchased at health food stores)
- 5 drops Frankincense oil
- 5 drops Lavender oil
- 5 drops Melaleuca oil
- 5 drops Helichrysum oil
- 5 drops Myrrh oil

Directions

1. Place Fractionated Coconut Oil and rosewater in glass spray or pump bottle.
2. Add essential oils and shake.
3. To use, spray directly on skin or place 2–3 pumps in palms and rub on affected skin.

dōTERRA Salon Essentials® Root to Tip Serum

Primary Benefits

- Provides immediate conditioning, smoothing, and shine
- Contains protective lipids to nourish and moisturize hair and scalp
- Deep conditions and promotes hair surface maintenance, leaving hair soft, shiny, and silky

Helps improve the appearance of healthy hair, resulting in fewer visible split ends

Ingredients

Cyclopentasiloxane, Dimethicone, *Lavendula angustifolia* (Lavender) Essential Oil, *Mentha piperita* (Peppermint) Essential Oil, *Cedrus atlantica* (Cedar Wood) Essential Oil, *Lavandula hybrida* (Lavandin) Essential Oil, *Origanum majorana* (Marjoram) Essential Oil, *Argania spinosa* Kernel Oil, *Plukenetia volubilis* Seed Oil, *Limnanthes alba* (Meadowfoam) Seed Oil, *Melaleuca quinquenervia* (Niaouli) Essential Oil, *Rosmarinus officinalis* (Rosemary) Essential Oil, *Eucalyptus globulus* (Eucalyptus) Essential Oil, *Helianthus annuus* (Sunflower) Seed Oil, Tetrahexyldecyl Ascorbate, Tocopherol, *Rosmarinus officinalis* (Rosemary) Leaf Extract

Description

doTERRA Salon Essentials Root to Tip Serum is a salon professional formula infused with essential oils and nourishing lipids to promote smooth, shiny hair and a healthy-looking scalp. The carefully chosen CPTG[®] essential oils of Lavender, Peppermint, Marjoram, Cedarwood, Lavandin, Rosemary, Niaouli, and Eucalyptus are known for their ability to rejuvenate the scalp while supporting the appearance of healthy hair. This powerful, lightweight serum provides extended moisture without weighing hair down or leaving an oily residue.

Directions for Use

Apply several drops on clean, damp hair in different locations on the scalp and lightly massage with finger tips. For healthier, smoother-looking hair, apply lightly throughout hair, paying special attention to the ends. Dry and style as usual.

dōTERRA Salon Essentials® Protecting Shampoo and Smoothing Conditioner

doTERRA Salon Essentials Protecting Shampoo and Smoothing Conditioner is a hair-boosting duo that works to protect your scalp and hair while enriching it with doTERRA essential oils, giving your hair the healthy and smooth look it deserves.

Primary Benefits

- Provides light moisturizers that leave hair soft, shiny, and silky
- Reduces combing force in both wet and dry hair
- Reduces mechanical styling damage to hair and shortens styling time
- Promotes cleansing of the hair, hair follicle, and scalp, by helping remove residue left behind by styling products
- Botanical extracts provide hair color maintenance and protection, as well as lipids that support healthy-looking hair

CPTG essential oil blend of Lavender, Peppermint, Marjoram, Cedarwood, Lavandin, Rosemary, Niaouli, and Eucalyptus helps keep the scalp looking clean and healthy
