

Cat Care: Essential Oils Are for Everyone!

Essential Oils Are:

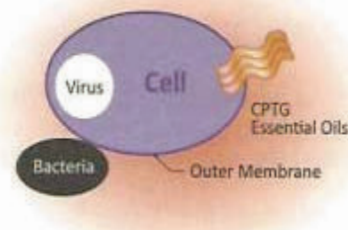

- Natural aromatic compounds found in plants
- Extracted by steam distillation or cold-pressing
- Powerful and safe, without side effects
- 50-70x more powerful than herbs

*Oil sacs on marjoram leaf

Essential Oils Kill Viruses and Bacteria

- Antibiotics cannot penetrate cell membrane
- Essential oils CAN penetrate cells to kill viruses and bacteria

Essential Oil Production

Therapeutic

Health Benefit

Three Ways to Use Essential Oils:

1. Aromatic

- Mood management
- Air purification
- Opening airways

2. Topical

- Systemic, localized effects
- Massage
- Immediate comfort
- Immune support

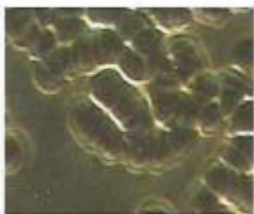

3. Internal

- Digestive system
- Mouth
- Throat
- Liver

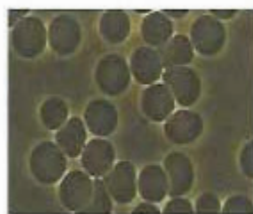

They Work FAST!

Red blood cells using dark field microscopy

Control blood sample, before essential oils

Blood sample taken 30 seconds after topical application of Balance blend

Tips for Essential Oils and Cats:

- Cats are small and sensitive. Use less than a drop of oil at a time—even less for pregnant females and kittens. Dilute with coconut oil if needed. Use Melaleuca with caution.
- Apply oils between toes and on the pad of the foot when doing foot applications.
- Essential oils do not build up in the systems like drugs do; reapply as needed.
- Avoid getting oils in eyes; flush with milk if needed.

- 💧 Serenity: Anxiety, Burns, Inflammation, Wound Care
- 🔥 Zendocrine®: Kidney and Bladder Infections, Liver Support

Flea Repellent

Mist: In a 16 oz. spray bottle, put 4-6 drops of Rosemary, and then fill the remainder of the bottle with distilled water. Lightly spray cat, avoiding the eyes. Reapply as needed for flea prevention.

Oil: Apply TerraShield® neat (no dilution) to paws, around ears, and to other trouble areas.

Tooth Problems/Gum Loss

In a 2 oz. glass bottle, put 6 drops of On Guard®. Fill the remainder of the bottle with Fractionated Coconut Oil. Apply 1-2 drops of the mixture to gums and teeth morning and night.

Travel Tip

Apply a drop of Serenity to travel crate for a more peaceful ride.

Chronic Health Conditions (Including Feline Leukemia), Wound Care, and Show Cats

Add the Lifelong Vitality Pack to your oils program. It has been proven to improve immune function, reduce inflammation, increase energy, promote vitality and wellness, support brain and digestive function, and more!

The person whose contact information is listed on this flyer can help you address specific conditions using essential oils.
