A guide to dōTERRA® plant-based therapy and how it can be integrated into medical practices.

**CPTG** Certified Pure Therapeutic Grade®

### Dr. Dave Recommends:

#### OnGuard®

Dr Dave talks extensively to his patients about OnGuard®. He uses it in his practice on his patients topically as well as he uses it in his surgery. Why? Because it is an effective cleansing agent, reduces bleeding and speeds healing. Dr. Dave recommends OnGuard be diffused in medical waiting rooms to cleanse and purify air as patients come and go. He also diffuses citrus oils to calm patients by reducing stress and anxiety.

### What are essential oils?

Essential oils are natural aromatic compounds derived from plants that are carefully extracted via a low heat steam distillation process. Present in a pure, concentrated form these compounds have healing properties that have been exploited for centuries in the field of plant-based therapy.

### Why compliment modern medicine with plant-based alternatives?

A 2008 study performed by the national Institute of Health showed that about 4 in every 20 adults use complimentary and alternative medicine. The bottom line: people want natural options and practitioners will be better equipped to care for patients if they are knowledgeable of plant-based therapies. dōTERRA's CPTG oils are unequivocally pure, concentrated and strongly supported
